

# **DIGITAL AFRICA CONFERENCE & EXHIBITION 2023**

# ABOUT DIGITAL AFRICA CONFERENCE & EXHIBITION.

Since 2013, the annual Digital Africa Conference and Exhibition has become a vital platform for networking, sharing knowledge, unveiling and launching latest innovations in the technology ecosystem. With attendees from within and outside Africa, it is a market place where organisations and people connect to do business and sign deals.

Every major technology company and consumer in Africa and the world at large can participate at Digital Africa. We thus welcome you to join us for insightful features that have been carefully developed to ensure that participants get the most out of the 3-day event.

*We're much more than just a 3-Day event. We're an experience.*

# **DIGITAL AFRICA CONFERENCE & EXHIBITION 2023**

Digital Africa Conference and Exhibition 2023 will be the eleventh iteration of ten earlier events providing visibility and platform for renowned ICT experts willing and wishing to lend their expertise in the development of the ICT sector in Sub-Saharan Africa. This conference will be pivotal in showcasing the inventiveness of Africa's budding techpreneurs alongside other participants in the technology eco-system

# EXHIBITION

The Conference offers organizations:

**Network:** Expand your network. Participate in the Business-to-business match making session.

**Advertise** your organization to promote or showcase a new product, service or solution.

When the Digital Africa 2023 doors open, have your company's name, brand and products seen first. We have the tools to help your brand educate, entertain and drive attendees and media to your exhibit. Activate your brand through custom opportunities with exhibit space, VIP events and sponsored experiences, branding and promotional opportunities.

All opportunities are flexible, customizable and transitional. Let's create an experience to kick-start unrivalled innovation and collaboration.

# About the Organisers

The event is organized by Digital Africa Global Consult Limited, an international ICT consulting company promoted by professionals drawn from Africa, Europe and USA. The event is conceived as an integral part of the vision to move Africa from being a passive consumer to a dominant innovator and producer of digital technologies.

We create and execute programmes that facilitate the deliberate growth of the technology sector. While helping technology companies address the needs of local markets and reach out to the international market, we create a bridge between buyer, supplier and manufacturer, thus providing a channel through which international companies can expand their businesses into Africa with ease.
